Date and Time Products Delivered to Incident: 20210826 0358PDT		Digital files sent to: ftp.wildfire.org , emailed attachments to distro group	
Comments /notes on tonight's mission and this interpretation: <p>Northeast island merged with the main perimeter over the course of 24 hours and continued to grow eastwardly. Further expansion of the main perimeter in the NNE section, also in an eastwardly direction. West perimeter saw minor growth to the west. Southern perimeter remains unchanged. Scattered heat throughout the incident, with intense heat around the NNE and SSE.</p>
